Steroids & Hormones

- Beclomethasone Dipropionate
- Beclomethasone
- Beclomethasone Dipropionate
- Beclomethasone Sodium Phosphate
- Beclomethasone Valerate
- Clobetasol Propionate
- Cyproterone Acetate
- Dexamethasone
- Dexamethasone Acetate
- Dexamethasone Sodium Phosphate
- Dexamethasone Valerate
- Estradiol
- Estradiol Benzoate
- Estradiol Cypionate
- Estradiol Enanthate
- Estradiol Valerate
- Estradiol
- Ethynil Estradiol
- Finasteride
- Fluocinolone Acetonide
- Fluticasone Propionate
- Hydrocortisone
- Hydrocortisone Acetate
- Hydrocortisone Butyrate
- Hydrocortisone Sod. Succinate Sterile
- Hydrocortisone Valerate
- Levonorgestrel
- Medroxyprogesterone Acetate
- Mesterolone
- Methylprednisolone
- Methylprednisolone Aceponate
- Methylprednisolone Hemisuccinate
- Methylprednisolone Sodium Metasulfobenzoate
- Methylprednisolone Pivalate
- Methylprednisolone Sodium Phosphate
- Methylprednisolone
- Progesterone
- Spironolactone
- Testosterone (various)
- Tibolone
- Triamcinolone Acetonide, -Potassium salt

Other APIs and products are available upon request. Just let us know what you are looking for.

ChemSwiss Global Excellence

Products & Quality

As a GDP (Good Distribution Practice) certified company, we are in the favourable position of being exclusively well-manufactured products of high-quality attributes and product portfolios.

They are experienced in API development & production, are accustomed to working according to internationally accepted quality standards and offer complete documentation for registration purposes, plus excellent technical support.

Our main product groups are:

- Steroids & Hormones
  - New generic APIs
  - Ancillary ingredients & feed additives
  - Raw materials
  - Special chemicals for the chemical industry

Most of them:
- are available with EDMF and or COS/CEP
- comply with the latest versions of EP/BP and USP
- have technical data sheet (TDS) and written confirmation
- are internationally accepted (PMPLAR, CPR-AAP)
- can be offered according to your particle size distribution requirements

All steroids are free of BSE/TSE prions to their origin.

ChemSwiss Introduction

ChemSwiss is an innovative and dynamic company offering a variety of products to partners within the pharmaceutical, veterinary, nutraceutical & chemical industries.

We are renowned for our profound knowledge of the API market and its needs, as well as for our excellent service and technical support. Our aim is to act as partner to our customers’ full satisfaction. Finding the best possible solution for them.

ChemSwiss AG in Switzerland initially represented mainly European API manufacturers before it was able to sign attractive exclusive deals for APIs from Chinese manufacturers. We subsequently strengthened our position in the steroid/hormone API market, as well as in veterinary and nutritional business, in both regulated and non-regulated markets by adding sources from all over the world.
