

The logo for Formpack® is written in a white, bold, sans-serif font with a registered trademark symbol. It is positioned in the upper left corner of a blue, abstract background that features various textures like water droplets, snowflakes, and dandelion seeds, along with geometric shapes and lens flare effects.

Formpack®

Setting the Standard

With 30 years of proven performance and over 50 million square meters used annually, Formpack® is the original coldform brand that continues to set the standard today. Featuring an impermeable barrier to moisture, light, oxygen, and other gases, Formpack® also provides unsurpassed forming capabilities and extreme dimensional stability.

Features

- Impermeable barrier: moisture, light, oxygen and other gases
- Maximum fracture-free forming capabilities
- Long-term delamination resistance
- Versatility: selection of stiffness, print and color options

Key benefits

- Security: original coldform brand, more than 30 years of proven performance
- Optimal protection extends product shelf life
- Smallest cavity design results in low material usage
- Unsurpassed quality: consistent performance maximizes production reliability

Applications

- Customized packaging concepts
- Patient unit dose

Added value

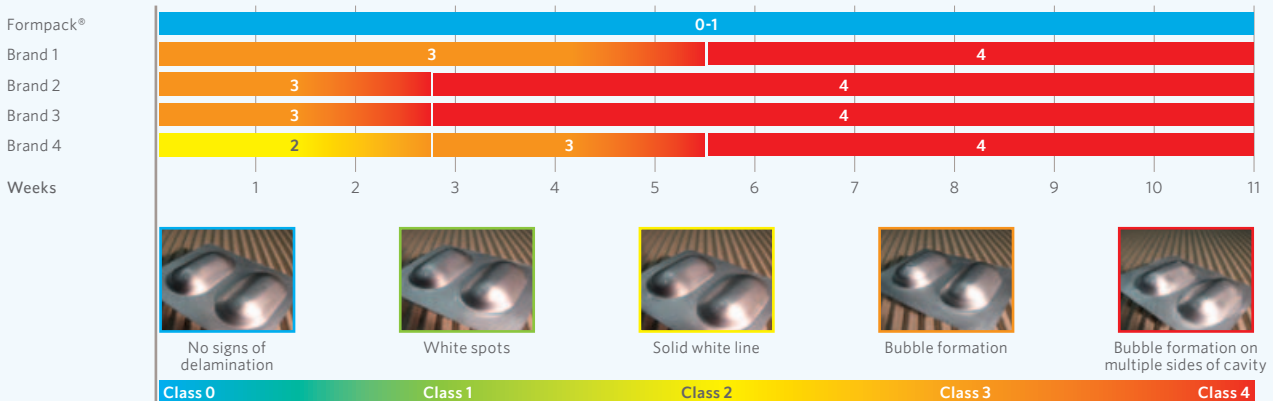

- Fracture-free guarantee when tooling is designed by Forsis® simulation and PhiCheck analysis services
- N'CRYPT® Pharma Security Solutions for anti-counterfeiting protection
- One system reliability when coupled with Amcor lidding
- Regulatory and pharmaceutical GMP compliance
- Technical assistance
- Global network to offer continuity of supply
- Global R&D innovation centers
