

# WATTS'UP®

- IMPROVES POWER IN TRAINED ATHLETES
- CLINICALLY PROVEN EFFECTS ON ENDURANCE
- PATENT PROTECTED
- NATURAL BIOFLAVONOID COMPLEX

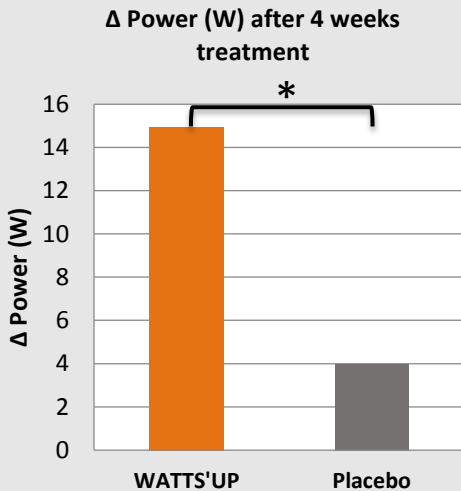

**POWER TO THE ATHLETES**

## WATTS'UP® IMPROVES POWER

WATTS'UP® has shown in a randomized placebo controlled trial to significantly improve power, which is one of the best measures for performance.

Four weeks intervention with WATTS'UP® resulted in a significant power increase. After four weeks, the improvement in power was 4 times higher in the WATTS'UP® group compared to the placebo.

The human trial was performed by the InnoSportLab of the Dutch Olympic Committee at Papendal, The Netherlands.

## ..EVEN IN WELL TRAINED ATHLETES

The increase in power was even more remarkable given that the participants were all physically well trained, with an average of 9.6 hours of exercise per week.

## WHAT IS WATTS'UP®

WATTS'UP® is a natural bioflavonoid complex specifically developed for a rapid uptake in the blood circulation.

WATTS'UP® is developed for use in functional foods and dietary supplements. The ingredient is an off-white powder from natural origin.

- PROVEN IN ATHLETES
