

Gerresheimer Plastic Packaging for Personal Care

Our portfolio of high-quality plastic products caters to the needs of all the international cosmetics and personal care industry's beauty, skin and hair care markets. We offer unique diversity even within our standard range of more than 200 shapes and we also develop customized solutions tailored to your individual needs.

We have more than 20 years experience in plastic packaging for the personal care and cosmetics industry and a comprehensive catalog of standard products. Based on our many years of know-how, we are not only a supplier of standard products but also a company that gives our customers inspiration and ideas on new designs that we can either put into production or develop further in a collaborative effort. Our portfolio includes bottles for shower gel, body care and hair care, among other products.

Technologies

- Injection stretch blow moulding

Plastic materials

- PET

As Gerresheimer Plastic Packaging is committed to environmental concerns we offer our PET ranges with different mixtures of post-industrial or post-consumer recycled materials. We are capable of producing the bottles with 100% recycled materials.

Standard and custom moulding

Gerresheimer Plastic Packaging offers unique diversity even in the standard range and we are happy to develop products for your individual needs and requirements. Our range of machines give us maximum flexibility and allow us to adapt easily to any size of product series.

We cooperate with experienced coloring partners and we have the capability to develop specific master batches at short notice. You can choose from PET bottles that are colored, transparent, translucent and opaque.

Decoration

We cooperate with a broad network of decoration partners and provide you with the following finishing options:

- Silk printing
- Hot stamping
- Varnishing

Support services

- Premium designs
- ISO 9001:2000
- Dedicated R&D Center
- Partnership within quality decoration
- Dedicated Customer Care Center
